

Let's Talk Healing

with

Drea Kelly

Sunday, August 30, 8 p.m. - Channel 3

Presented by: SAMARITAN
HOUSE 

Things to Keep in Mind While Planning Your Watch Party

Where to Host?

- At home
- At a public venue
 - Make sure to have reserved the space well in advance
 - Know how and where you will project the broadcast at the venue
 - Provide computer/ipad/tablets for making donations during the event. Pre-set the event website on these so your guests just have to make their donation. Link will be provided once live.

Advance Preparation

- Determine connectivity and method of broadcast at whatever location you have decided
 - Large television
 - Projected on a wall
 - You will need Wi-Fi, a projector and screen, and speakers
- Determine if any refreshments will be served and who will provide them
- If your schedule will not allow you to host a party on August 28, set your DVR to record the show and host a party at a later date.

The Day Of

- What is happening before the broadcast while guests are entering and settling in?
- Test projector, tv, and devices a half hour ahead of time to leave time to troubleshoot if necessary
- Secure a few iPads and/or computers for guests to make donations during the broadcast
- Be prepared to share a short statement for Samaritan House before the telethon. This could include our mission statement, your personal involvement with SH, or even a success story if you have one handy. Framing the watch party with this helps guests really picture what it is they are supporting.

And then enjoy the show!
